# SmartPanel™
## Structured Wiring Panels

**SP-18**
18 inch Panel - SmartZone™ compatible up to 13 Zones

**SP-28**
28 inch Panel - SmartZone™ compatible up to 18 Zones

**SP-48**
48 inch Panel - SmartZone™ compatible up to 33 Zones

- Simple, one piece unit protects and conceals connections and creates a central distribution point.

- Structured Wiring Panels provide a universal mounting system that allows for a variety of SmartZone™ zone control panels and communicating thermostat products to be used. In residential applications, SmartPanel™ construction also allows third-party modules to be integrated into the panel, including telephone, data, audio and video products.

- Easy to install, standard inwall mounting panel hangs easily between studs on 16" centers, or it can be surface mounted.

- Quick to wire, test and troubleshoot. One 110V duplex receptacle knockout located at the bottom, five 2" knockouts at the top. (receptacle not included)

- The removable cover uses a secure latching design with a key lock. This allows for an easy mounting solution with a clean and professional look.

- Glossy white sturdy yet stylish steel construction, US/UL Listed, (household fire and burglary system rated enclosure), comes with a cardboard paintcover.
